PROFESSIONAL SUMMARY

Product-focused Computer Science undergraduate with experience building user-centric digital solutions, strong in problem-solving, data-driven decision making, and cross-functional collaboration.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering - Artificial Intelligence & Machine Learning

Vellore Institute of Technology, Bhopal

2023 – Present | CGPA: 8.47 / 10

Senior Secondary (Class XII), CBSE

Avadh International School

2020 – 2022

Secondary (Class X), CBSE

St. Mary's Day Inter College

2010 – 2020

WORK EXPERIENCE

Process & Verification Intern,

Manipal Business Solutions Pvt. Ltd. | May 2026 - Jun 2026

- Owned a customer document-verification workflow end-to-end, delivering consistent accuracy across 500+ real client submissions within tight turnaround windows.
- Partnered with a 5-member team in daily Agile stand-ups to catch process gaps early and drive fixes, helping lift fraud-flagging coverage by 30%.
- Audited the workflow for bottlenecks and cut average processing time by 20% through targeted process improvements.
- Authored clear, client-ready performance summaries and documentation for handoff, translating team progress for external stakeholders with zero ambiguity.

TECHNICAL PROJECTS

SangamSathi AI, Multilingual Pilgrim Assistant, Mahakumbh 2025

- Identified a real, large-scale user problem: pilgrims facing language and navigation barriers, and scoped a 6-language assistant product to solve it directly.
- Prioritized features around actual user needs (chat support, live navigation, crowd/emergency alerts) and made key UX calls for a low tech-literacy audience.
- Took the product from concept to a fully working, demo-ready launch as part of a competitive hackathon.

Wonderland, Vacation Rental Booking Platform, Personal Product

- Owned the product end-to-end, defining the core user journey (browse, book, pay) and sequencing features to reach a real, working launch.
- Made independent scope and trade-off decisions, shipping a live, usable product rather than a static prototype.

Counterfeit Currency Detection, Research Product

- Identified a practical real-world problem and drove it from concept to a 99.99%-accurate, deployable solution.
- Pushed the product beyond a lab demo by integrating real-time hardware capture, making it usable in an actual field setting.

LEADERSHIP & RESPONSIBILITY

Discipline Committee Member, Convocation, VIT Bhopal

- Held direct responsibility for verifying that all event arrangements, seating layouts, and logistics were properly organized and in place, running checks before and during the ceremony to catch and fix gaps early.
- Managed guest and attendee coordination and registration for a high-volume event, acting as the go-to point of contact to resolve issues on the spot and keep the entire flow running without delays.

NSS Member (National Service Scheme), VIT Bhopal

- Contributed consistently to university-organized community service and outreach initiatives as an active member of a larger volunteer team.
- Built a reputation for reliability by showing up and delivering across multiple drives and campus initiatives throughout the year.

SKILLS

- Core Skills:** Communication, Leadership, Problem Solving, Analytical Thinking, Teamwork, Time Management, Adaptability
- Product & Business:** Product Thinking, User Research, Stakeholder Management, Cross-functional Collaboration, Feature Prioritization, Data-Driven Decision Making
- Tools:** Microsoft Excel, PowerPoint, SQL, Google Workspace, Git, GitHub

CERTIFICATIONS

AWS Solution Architect Associate | AWS AI Practitioner | Microsoft Azure Data Fundamentals (DP-900) | IBM Watsonx Generative AI | Applied Machine Learning in Python - University of Michigan | NPTEL Cloud Computing | NPTEL Internet of Things
